Mobile Application :

Seamless User Experience :

The APP windows easily switches between home and remote tabs to enable an effortless user experience.

Set Schedules & Routines :

Set your appliances to power on/off at preset timings , create routines for a set of appliances, So they can operate in sync without manual operations.

Power Tracking Tab :

Power tracking tab on the home dashboards displays your hourly and daily power consumption in real time.

Lock Room Capability :

This feature let the users lock any room in the house Via the app, So that user will be notified on any intrusion immediately.

Mobile Application :

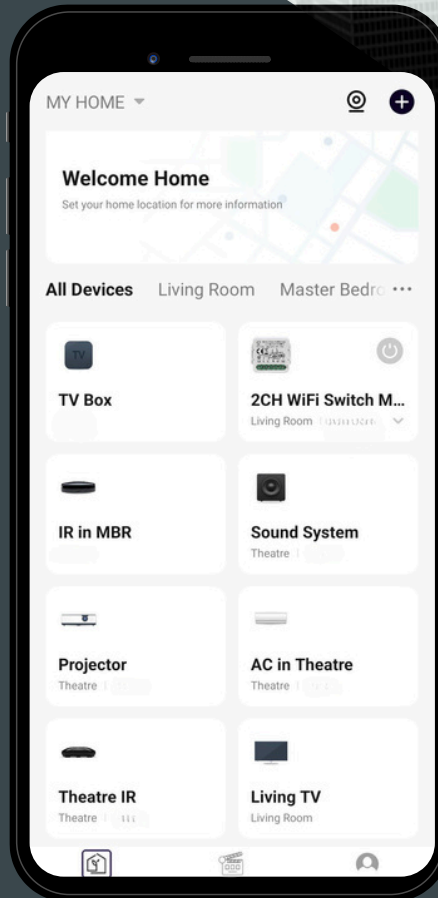

Option To Share Home Access :

Share your smart home access with all other members in your home. You can either grant someone full access to your smart home devices or none at all.

Scenes :

Customize your appliances to create theme based scenes for you whenever you want to. Example: Party scene or Peace Scene.

Workflow :

Let your appliances make intelligent decisions based on their surroundings. Example: Your AC automatically turns when room temperature reaches 30 degree Celsius.

In-App Entertainment Guide :

Access your TV guide inside your application. Set reminders, access streaming link on your favorite channels and programs.

Power Saving &
Energy Efficient

BENEFITS :

AI ERA Products are easy to install and can be configured from the AI ERA Mobile application.

Users can create scenes, schedules & location based rules from the application itself.

All configuration changes can be done by user from the application itself.

Proper use of scheduling features will result in power saving.

Adding AI ERA to your home is not a cost, but an investment to future.
